

## 2 Dollars = 1 Home: Together We Build a Future for One Family

Vienna, 11/2025 — A bold new movement, 2 Dollars = 1 Home, is calling on Americans to unite behind one simple but powerful idea: if 1.5 million people each contribute just **\*\*two dollars\*\***, a four-person family will receive a safe and permanent home.

Founded by community advocate Andreas Prisching, the initiative shows how small, collective acts of generosity can create real, lasting change. Every donation is transparently tracked on a live Google Sheet and progress bar, showing the journey toward the \$1,500,000 goal — enough to build a sustainable family home from the ground up.

“When millions of people give just two dollars, we don’t just build a house — we build hope,” says Prisching. “This is proof that together, even small acts of kindness can create something extraordinary.”

The website, <https://buildahome.at> features an English/German language switch, real-time progress updates, and a “Hall of Fame” honoring contributors.

Supporters can donate directly through **\*\*PayPal Me\*\*** or follow the official **\*\*FundRazr\*\*** campaign.
